Vinyl Windows

Distinctive Style

With the beauty of a sunset on the horizon, the earth itself blocks the warming heat of the sun and the energy escapes our environment. In contrast, the Horizon Single Hung New Construction Window blocks the escape of costly cooling and warming energy and insures a comfortable setting throughout the year for your home.

The Horizon is the new, beautifully designed aesthetic single hung new construction window from Earthwise Vinyl Windows. With contour lines and sculpted millwork features, the Horizon Single Hung New Construction Window will give the new home that you're building, an elegant, distinctive look.

Beyond style, this fully welded vinyl window offers the most technologically advanced design and thermal performance in the window industry. The state-of-the-art materials and precision engineering insures you a quiet, secure environment with unsurpassed efficiency that lowers the cost of comfort year round.

And best of all, the Horizon Single Hung New Construction Window is an Earthwise Vinyl Window. Earthwise windows are guaranteed to last a lifetime and will improve the comfort and appearance of your home. So make the intelligent choice in windows. Be Windowwise, choose a window by Earthwise.

Earthwise Vinyl Windows

Earthwise is a selective national group of window manufacturing fabricators who produce the same high quality vinyl window system. This alliance of fabricators is called the Earthwise Group.

The group was formed with the purpose of creating a national identity within the window industry and combining production, distribution and marketing strengths.

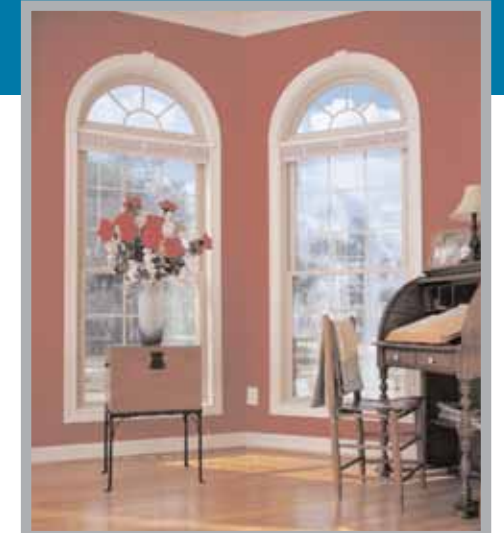

Superior Design

- Millwork-Look Exterior Frame Design
Gives a rich detail and style, providing a distinctive millwork-finished look
- Fusion Welded Sash and Mainframe
All the needed strength and integrity
- Extra Wide, Sturdy Integral Nailing Fin
Installation ease and inhibits water and air infiltration
- Patented Integral J-Channel Design
Master frame J-Channel receptor provides clean look and saves time and cost.
- Maintenance Free Vinyl Construction
Lasting beauty and thermal performance, multi-chamber, heavy wall construction
- Tilt-In Bottom Sash
Easy Operation and Cleaning
- Slope Sill Design
Ensures quick water run off and improves energy savings
- Interlocking Meeting Rail Design
Full length interlock for security and thermal performance
- 3/4" **SpacerWise** Insulated Glass System
Maximizes thermal efficiency and Warm Edge Technology
- Advanced Balance System Technology
Lasting, smooth, dependable sash operation
- Full Length Extruded Handle Rail
Allows easy sash operation
- Designer Cam Lock
Positive locking action for security and thermal efficiency
- Optional Low E Glass
For Energy Star authorization
- Optional Jamb Extension Products
Applied jamb extensions in 4 9/16" or 6 9/16" in both vinyl and wood.

Verified Quality

Earthwise Vinyl Windows has set the standard for quality and service in the window industry. Our windows and doors are engineered and built to meet the highest standards and specifications in the industry. Earthwise custom vinyl windows are tested to AAMA and NFRC standards, as well as enjoying a partnership with the Energy Star program.

The Energy Star window program is a voluntary partnership between the US Department of Energy and participating window manufacturers. All of our windows using **Comfort U WiseGlass** Low E are Energy Star compliant.

The National Fenestration Rating Council (NFRC) is a non-profit, public-private organization created by the window, door, and skylight industry. It has established a voluntary national energy performance rating and labeling system. All Earthwise Vinyl Windows meet NFRC Rating guidelines.

The American Architectural Manufacturers Association (AAMA) is a voluntary organization that establishes material performance standards for the window industry. Our windows meet or exceed the AAMA guidelines.

As you can see, our windows and doors meet or exceed demanding rating requirements, providing a lifetime of top-quality, performance and efficiency.
